

Our town is three hours in all directions of a metropolis. We have few radio stations on FM and only have 2 christian stations; one being K-LOVE. If I could not listen to K-LOVE while driving 80 miles each day to work, I would feel robbed. There are many families in our area that drive their children the same 80 miles each day to go to christian schools. The christian information passed on and the morals that are discussed would be sorely missed. K-LOVE is not only music, which is wonderful without commercials, but thoughts of wisdom and personal experiences. I freely supported K-LOVE monthly until I lost my job, then I supported K-LOVE with my unemployment checks until they ran out. I will again support K-LOVE when I begin receiving my social security benefits next year. I've lived my life for Jesus, now let's let the youth live theirs.
